

# IVF Centre in Coimbatore

In vitro fertilization (IVF) is a complex series of procedures used to help with fertility or prevent genetic problems and assist with the conception of a child. During IVF, mature eggs are collected (retrieved) from ovaries and fertilized by sperm in a lab. Then the fertilized egg (embryo) or eggs (embryos) are transferred to a uterus.

**IVF Cost in Coimbatore** is rated depending on the infertility workup of the couple, and this is not set for all the couples which may differ depending on the health situations of the couple. The IVF treatment cost in Coimbatore is affordable for foreign couples, and Coimbatore welcomes the highest number of IVF Medical tourists in India. IVF cost may vary depending on the drugs worked. IVF cost is separated into various verticals namely,

- IVF Pre-preparation costs
- Hormone Injections Cost
- IVF Cost
